## Intoduction to Filing Systems

records are numbered sequentially upon creation. Advantages: Terminal digit systems have the advantage of distributing sequentially created records throughout the filing system, rather than placing them physically together. This reduces the need to frequently shift all the records as older records are destroyed and new records are created.

## DVD based Bible Study Resources

The list of what "good Christians: should be doing never seems to end. Every time we turn around we're learning about something else that good Christians are doing. The result is many Christians find themselves more exhausted than inspired. Jesus' revolutionary message is that the center of Christianity is not a list of things we
