Jerusalem on the Hill Marie Tanner 2010
This author analyzes the Renaissance rebuilding of Saint Peter's basilica as a mirror of the political fortunes of the papacy. The project to revitalize the basilica as the center of a resurgent Church proceeded in step with the goal to reassert papal authority across the Italian peninsula, and to extend that authority to the Eastern Mediterranean by mounting a crusade to recover the Holy Land. By embedding references to the Holy Land in the fabric of the new basilica, the architecture itself became the expressive voice of the papacy's political agenda. Peter's tomb provided the fulcrum of a program to transform the basilica, and all of Rome, into a new Jerusalem. As introduced by Nicholas V (1447-1455) and refined by Julius II (1503-1513), these ideas were translated into physical form by Donato Bramante. Drawing inspiration from innovations developed elsewhere in Italy, and with heightened sensitivity for the expressive power of ancient and medieval architecture, he forged a new vocabulary that would transform the entire subsequent history of the built environment. This book is about how that process of transformation was rooted in papal ideology.

Economy of the Unlost Anne Carson

2009-04-11 The ancient Greek lyric poet Simonides of Keos was the first poet in the Western tradition to take money for poetic composition. From this starting point, Anne Carson launches an exploration, poetic in its own right, of the idea of poetic economy. She offers a reading of certain of Simonides' texts and aligns these with writings of the modern Romanian poet Paul Celan, a Jew and survivor of the Holocaust, whose "economies" of language are notorious. Asking such questions as, What is lost when words are wasted? and Who profits when words are saved? Carson reveals the two poets' striking commonalities. In Carson's view Simonides and Celan share a similar mentality or disposition toward the world, language and the work of the poet. *Economy of the Unlost* begins by showing how each of the two poets stands in a state of alienation between two worlds. In Simonides' case, the gift economy of fifth-century b.c. Greece was giving way to one based on money and commodities, while Celan's life spanned pre- and post-Holocaust worlds, and he

himself, writing in German, became estranged from his native language. Carson goes on to consider various aspects of the two poets' techniques for coming to grips with the invisible through the visible world. A focus on the genre of the epitaph grants insights into the kinds of exchange the poets envision between the living and the dead. Assessing the impact on Simonidean composition of the material fact of inscription on stone, Carson suggests that a need for brevity influenced the exactitude and clarity of Simonides' style, and proposes a comparison with Celan's interest in the "negative design" of printmaking: both poets, though in different ways, employ a kind of negative image making, cutting away all that is superfluous. This book's juxtaposition of the two poets illuminates their differences--Simonides' fundamental faith in the power of the word, Celan's ultimate despair--as well as their similarities; it provides fertile ground for the virtuosic interplay of Carson's scholarship and her poetic sensibility.

Rusch to Glory Rebecca Rusch 2014-10-01
Rebecca Rusch is one of the great endurance athletes of our time. Known today as the Queen of Pain for her perseverance as a relentlessly fast runner, paddler, and mountain bike racer, Rusch was a normal kid from Chicago who abandoned a predictable life for one of adventure. In her new book *Rusch to Glory: Adventure, Risk & Triumph on the Path Less Traveled*, Rusch weaves her fascinating life's story among the exotic locales and extreme conditions that forged an extraordinary athlete from ordinary roots. Rusch has run the gauntlet of endurance sports over her career as a professional athlete-- climbing, adventure racing, whitewater rafting, cross-country skiing, and mountain biking--racking up world championships along the way. But while she might seem like just another superhuman playing out a fistful of aces, her empowering story proves that anyone can rise above self-doubt and find their true potential. First turning heads with her rock climbing and paddling skills, Rusch soon

found herself spearheading adventure racing teams like Mark Burnett's Eco-Challenge series. As she fought her way through the jungles of Borneo, raced camels across Morocco, threaded the rugged Tian Shan mountains, and river-boarded the Grand Canyon in the dead of winter, she was forced to stare down her own demons. Through it all, Rusch continually redefined her limits, pushing deep into the pain cave and emerging ready for the next great challenge. At age 38, Rusch faced a tough decision: retire or reinvent herself yet again. Determined to go for broke, she shifted her focus to endurance mountain bike racing and rode straight into the record books at a moment when most athletes walk away. *Rusch to Glory* is more than an epic story of adventure; it is a testament to the rewards of hard work, determination, and resilience on the long road to personal and professional triumph.

Dragons in the Forest Peter Yeldham 2016-11-17 ALEX's DIARY - DECEMBER 7th, 1941 Today the war began! I've just heard the news on the radio. I was trying to finish my homework in English, and at the same time listen to a talk to improve my Japanese. I often use the radio for this

purpose. The Marianist Brothers at St Joseph's teach us in English and French, but speaking Japanese at school is forbidden. Which is a pretty stupid rule, since this is where I was born and where my family lives, and on leaving school I want to get a job here ... Born in Japan of a French father and White Russian mother, Alex Faure greeted news of war in the Pacific with schoolboy enthusiasm. That is until the hardships of being a gaijin and neutral foreigner in Japan during World War II became a stark reality for the Faure family. ALEX's DIARY - DECEMBER 22nd, 1944 Since Sunday night there has been a raid most days and every single night. The bombing has been relentless. It accounts for the sombre mood; no Christmas spirit in evidence anywhere in this city. Certainly none at the French bank ... Peter Yeldham masterfully tells Alex Faure's own true story against the backdrop of real events in wartime Japan. Laced with excerpts from Alex's diary, Dragons in the Forest is a riveting tale of life as a foreigner in a strange land at a very dangerous time.

History of the Restoration and Conservation of Works of Art Alessandro Conti
2016-01-20 At times controversial and uncompromising, always intellectually honest, Alessandro Conti's book is - astonishingly - the only attempt to comprehensively chart in time, the changing impact of man's desire to preserve for future generations the materials, meaning and appearances of works of art. Remarkable in its meticulous research of source material and breadth of scope, *History of the Restoration and Conservation of Works of Arts*, translated by Helen Glanville, charts the practices and underlying philosophies of conservation and 'restored' works of art from the Middle Ages to the end of the nineteenth century. In English-speaking countries, a lack of foreign language skills leaves many unable to consult a wealth of both published and unpublished historical documentation. Developments in conservation have therefore tended toward the scientific and analytical. Access to such documentation leads to better understanding of the present appearance of works of art and of their changing aspect and perception over time. Recent publications indicate that there is a great need for people writing on the subject to be aware of material which is not in their mother tongue: approaches presented as 'new' are in fact merely 'contemporary', and have been discussed or practiced in other centuries and countries. Just as knowledge of practices and effects of art conservation and restoration should form an integral part of History of Art Degrees, the more theoretic, abstract and historical aspects, should also be part of the training. This book is an invaluable source for academic and public institutions, art historians as well as practicing conservators and lovers of art.

Monet and the Impressionists Claude Monet 2008 When Claude Monet exhibited his paintings for the first time in Paris, he acknowledged no teacher, intending to claim complete originality for his works. Since then, many writers have sought to corroborate his originality, latching on to statements such as What I do here will at least have the merit of not resembling anybody. Because it is simply the expression of what I've experienced by myself (letter to Bazille, 1866). In actual fact, Monet was gregarious, passionately interested in the paintings of his

predecessors and contemporaries, and he made a common political cause with his fellow impressionists, being a principal organizer of their first exhibitions. This book aims to recreate the artistic milieu of Monet and show his rapport with the unconventional non-academic currents of French art including the preceding generation of landscapists of the Fontainebleau School and the succeeding generation, including Paul Gauguin. Paintings by Claude Monet, approximately 20 in all, are grouped with the works of other artists connected to Monet to suggest the range of his experience, his influences, and the influence of his art, from his beginnings in the 1860s to the years after 1900. The artists used for comparison include greats such as Renoir, Sisley,

Pissarro, Degas and Cézanne.

What is Ancient Philosophy? Pierre Hadot 2002 Hadot shows how the schools, trends, and ideas of ancient Greek and Roman philosophy strove to transform the individual's mode of perceiving and being in the world. For the ancients, philosophical theory and the philosophical way of life were inseparably linked. Hadot asks us to consider whether and how this connection might be reestablished today.
