Gems of Art on Paper Georgia Brady Barnhill 2021-11-26 In the immediate aftermath of the Revolutionary War, only the wealthiest Americans could afford to enjoy illustrated books and prints. But, by the end of the next century, it was commonplace for publishers to load their books with reproductions of fine art and beautiful new commissions from amateur and professional artists. Georgia Brady Barnhill, an expert on the visual culture of this period, explains the costs and risks that publishers faced as they brought about the transition from a sparse visual culture to a rich one. Establishing new practices and investing in new technologies to enhance works of fiction and poetry, bookmakers worked closely with skilled draftsmen, engravers, and printers to reach an increasingly literate and discriminating American middle class. Barnhill argues that

while scholars have largely overlooked the efforts of early American illustrators, the works of art that they produced impacted readers' understandings of the texts they encountered, and greatly enriched the nation's cultural life.

New Expressions in Origami Art Meher McArthur 2020-10-06 The stunning photos and brilliant essays in this

book demonstrate why origami is now an international art movement--largely through the efforts and artistic genius of a few contemporary masters. The trailblazing efforts of Japanese artist Akira Yoshizawa elevated paper folding by showing how subtle shapes and figures could be created from a single sheet of paper through a variety of non-traditional folding techniques. Artists in other parts of the world--including the United States, France, England, China and Scandinavia--took Yoshizawa's cue and pushed these techniques further and further. The result has been the emergence of many new and surprising sculptural forms created through techniques such as wet folding, curved creasing, tessellating and the application of alternative materials besides paper. This book features the work of 25 contemporary master folders who are among the most innovative origami artists working today. They are pushing the boundaries of origami style, scale, materials, subject and scope in new directions. This elite group includes: Joel Cooper Erik Demaine and Martin Demaine Paul Jackson Beth Johnson Michael G. LaFosse and Richard L. Alexander Robert J.
