*Land Rover Design* Nick Hull 2021-10-20 A landmark new history from design journalist Nick Hull, Land Rover Design – 70 years of Success offers a detailed insight to the company's design story, from the early days of Land Rover in Solihull to the latest generation of the Range Rover Velar in 2018. The Land Rover was born from a desperate need by the Rover Company to develop a stop-gap model to provide cashflow in the post-war years. The original aim of a simple 4x4 agricultural tool soon developed into a multi-purpose vehicle that became the mainstay of the British Army and produced numerous offshoots for the emergency services, police, forestry and aid agencies worldwide. This book details the personalities involved in the various projects since the late 1940s up to today: the designers, modellers and studio engineers. It charts the development of Land Rover and Range Rover projects in the UK, particularly those designed in the Gaydon studio that opened in 1996, and is still a key part of JLR's design resource. From the early days of chalk drawings and wooden models to today's digital renderings and milled clays for the latest Range Rover Evoque, Land Rover's designers and technicians have never been short of creativity. This book tells their story, in their own words, and is a fitting tribute to the spirit and ethos of Land Rover design and engineering.

The book also examines the Range Rover as a competition machine and discusses its dual roles as on-road limousine and off-road mud-plugger, providing guidelines for efficient driving. To conclude, there is sound advice for anyone tempted to buy one of these classic vehicles. Fully revised and updated, with full specifications for each model and a wealth of photographs, this is the complete and definitive story of these classic vehicles. **Factory 19** Dennis Glover 2020-11-03 We're told that the future will be brighter. But what if human

happiness really lies in the past? Hobart, 2022: a city with a declining population, in the grip of a dark recession. A rusty ship sails into the harbour and begins to unload its cargo on the site of the once famous but now abandoned Gallery of Future Art, known to the world as GoFA. One day the city's residents are awoken by a high-pitched sound no one has heard for two generations: a factory whistle. GoFA's owner, world-famous billionaire Dundas Faussett, is creating his most ambitious installation yet. He's going to defeat technology's dominance over our lives by establishing a new Year Zero: 1948. Those whose jobs have been destroyed by Amazon and Uber and Airbnb are invited to fight back in the only way that can possibly succeed: by living as if the internet had never been invented. The hold of Bezos, Musk, Zuckerberg and their ilk starts to loosen as the revolutionary example of Factory 19 spreads. Can nostalgia really defeat the future? Can the little people win back the world? We are about to find out. 'Like Orwell, of whom he has written so brilliantly, Dennis Glover's work is charged with courage, intelligence and purpose. He is the complete writer, and one made for our times.' —Don Watson 'Savagely hilarious and unlike anything else you'll read this year. It boils with the anger of the present moment.' —Rohan Wilson

**Deconstructing Brexit Discourses** Benjamin Hawkins 2021-09-15 This book expands on and complements the burgeoning Brexit literature by placing the UK's vote to leave the EU in its longer historical and discursive contexts. It examines the embedded Euroscepticism, which has dominated British political discourse on the European project and the role of the UK within it for at least the last three decades. Brexit was the consequence of a consistent denigration of the European integration project in the public sphere in which the terrain, and the conceptual vocabulary, of debate were set by a dominant, right-wing Eurosceptic discourse. This framed the EU as inherently heterogeneous and antagonistic to the UK. The book examines how ideas of British exceptionalism, which underpin Eurosceptic discourses, are sustained and reproduced and offers an account of their enduring, affective power amongst the British population. It is in this context that it was possible for pro-Brexit campaigners to assemble and enthuse a new coalition of voters sufficient to deliver a 'leave' majority on 23 June 2016. This text will be of key interest to scholars and students of British, EU and European politics, the media and press, public opinion, political behaviour and nationalism studies.
