Takes the standpoint that a more critical approach to the course of development being followed by the Republic is urgently required. Sets out to expose the fallacies that drive the fashionable rhetoric of Tigerhood. **Researching Music Censorship** Helmi Järviluoma 2017-06-23 Freedom of expression and its direct counterpart, censorship and silencing, are increasingly gaining attention in the world of art and culture. Through the growth of social media and its worldwide distribution, arts and cultural products are shared, and the increased visibility and audibility of culture is highlighted through iconic and pivotal clashes, such as the fatwa on The Satanic Verses in 1989, the recurring bans on the music of Wagner, the alleged censorship of playlists following 9/11, and the cartoon crisis in 2006. This volume takes the discussion directly to the field of music studies in a broad frame and insists on examining music censorship in a global perspective. The book addresses the important and increasingly relevant issue of scholarship on music censorship and thus contributes to a detailed understanding of the phenomenon. Often, words and semantic meaning are held to be determining to the restrictions on musicians and singers, but as this collection documents, the reasons for censorship might not always be found in verbal messages. Rather, the positioning of a more broad understanding of why and how music can convey meaning and accordingly trigger censorship and bans is at the heart of this work. The complexity of music censorship includes historical, structural as well as emotional 'listensings' and interpretations of sound. The topic, accordingly, is political, as well as scholarly urgent.

Supreme Court justice Jens Peter Christensen places the Court within a constitutional setting and describes the role and daily functions of the Court. As a Professor of Law at the University of Copenhagen, Ditlev Tamm reviews Denmark's Supreme Court in a historical perspective, from the Court's birth in 1661 as a child of absolutism, to 2011 when the Court celebrated its 350th birthday. John Erichsen - a Master of Arts in history and art history - guides readers through the magnificent premises of the Court located in the heart of Copenhagen in Christiansborg, the palace that also houses the Danish Parliament and the Prime Minister's Office. **On Guilt, Responsibility, and Punishment** Alf Ross 1975-01-01 Selected essays originally published as a book in Danish in 1970. Three had been published before then in English, but the others are new. All deal with concepts common to law and morality. "They function in the same way in legal and moral discourse: guilt determines responsibility, and responsibility punishment. But the conditions under which a person incurs guilt differ according to whether the guilt is legal or moral, as do also the manner in which the responsibility takes effect and the penal reaction itself." **Hans Christian Andersen and Community** Anne Klara Bom 2020-01-07 The theme of community has perhaps never been of a more vital significance than in our present day and age. The process we refer to as modernity has been synonymous with the gradual fragmentation and disintegration of traditional communities on various levels of our societies. Today, we might be facing the culmination of this process. The spectres of nationalism are undermining various national and international communities. Inequality is on the rise. If people unite it is too often in the mistrust and sometimes hatred of other people. Hans Christian Andersen lived at a time when this process was at its early stages, and he was acutely aware of its potential perils. Alongside the transformations of traditional communities, other communities seem to appear. A recurring element in these culturally specific communities is literature, and Hans Christian Andersen is a key figure here, as his literary and cultural legacy has a magnetic effect on people around the globe. A vivid example of this effect was the conference Hans Christian Andersen and Community. The conference was held at the University of Southern Denmark in 2017 to celebrate the 150th anniversary of Hans Christian Andersen's status as honorary citizen in Odense. This book presents a selection of 19 contributions to the conference. In various ways, each chapter activates the concept of community in relation to Andersen as an author and as a citizen of the world he lived in as well as the cultural icon which he has become.

**Iqbal Farooq and the Guiding Star** Manu Sareen 2013-12-06 This is a very different Christmas story. Meet Iqbal Farooq and his family - for the first time in English: It is December 24th and Iqbal's dad just got a great idea: "Let's have the biggest and most spectacular Christmas tree in the whole building. No, in the whole neighbourhood." Dad shouted. But since his idea involves Iqbal's crazy uncle Rafiq, it probably means trouble. Manu Sareen is the author behind the politically incorrect children's books about Iqbal and his immigrant family's life in multicultural Nørrebro in Copenhagen, Denmark. Manu Sareen is also a well known politician and has served as Danish national congres member. This book is published in fixed layout.

**The Nature and Authority of Precedent** Neil Duxbury 2008 Neil Duxbury examines how precedents constrain legal decision-makers and how legal decision-makers relax and avoid those constraints. There is no single principle or theory which explains the authority of precedent but rather a number of arguments which raise rebuttable presumptions in favour of precedent-following. This book examines the force and the limitations of these arguments and shows that although the principal requirement of the doctrine of precedent is that courts respect earlier judicial decisions on materially identical facts, the doctrine also requires courts to depart from such decisions when following them would perpetuate legal error or injustice. Not only do judicial precedents not 'bind' judges in the classical-positivist sense, but, were they to do so, they would be ill suited to common-law decision-making. Combining historical inquiry and philosophical analysis, this book will assist anyone seeking to understand how precedent operates as a common-law doctrine.

Thomas Elholm 2014-06-30 Jurisdiction in criminal matters is one of the classical central issues concerning criminal justice. Due to globalization, it seems increasingly relevant for legislators, prosecutors, and judges all over. This book contains a brief overview of the criminal jurisdiction rules in the five Nordic countries: Denmark, Finland, Iceland, Norway, and Sweden. The structure of the book makes it easy to analyze and compare the rules cross-border. This is relevant due to the close historical and cultural relationship of the five countries, and due to decades of practical cooperation in criminal matters between the countries. The trend to extend domestic jurisdiction is also seen outside the Nordic countries, which makes the book relevant for readers outside the region. Jakob Ejersbo 2011-10-27 For the vagabond pack of ex-pat Europeans, Indian Tanzanians and wealthy Africans at Moshi's International School, it's all about getting high, getting drunk and getting laid. Their parents - drug dealers, mercenaries and farmers gone to seed - are too dead inside to give a damn. Outwardly free but empty at heart, privileged but out of place, these kids are lost, trapped in a land without hope. They can try to get out, but something will always drag them back - where can you go when you believe in nothing and belong to nowhere? Exile is the first of three powerful novels about growing up as an ex-pat in Tanzania. Ejersbo's first novel, Nordkraft, the Danish Trainspotting, was a phenomenal bestseller. Ejersbo's trilogy, only published after his death in 2008, has proved to be another cult and critical sensation.

Xinzhong Yao 2011 While having substantially declined in political and social influence, Confucianism was revived by leading intellectuals (so-called Modern New Confucians) in the twentieth century to deal with perennial problems facing modern people and society. It is against this background that Confucian Studies has become an increasingly important subject taught in universities and colleges in North America, Europe, East Asia, and Australia. With more and more universities and colleges offering courses on or relating to Confucian philosophy, ethics, religion, and politics, this new collection from Routledge answers the urgent need for a source book in contemporary Confucian Studies.

**The Last Execution** Jesper Wung-Sung 2016-03-22 Called "brilliantly devastating" in a starred review from Kirkus Reviews, this award-winning, mesmerizing novel, based on the chilling true story of the last execution in Denmark's history, asks a question that plagues a small Danish town: does a fifteen-year-old boy deserve to be put to death? On February 22, 1853, a fifteen-year-old Niels Nelson is prepared to be executed on Gallows Hill. The master carpenter comes to measure Niels for his coffin. The master baker bakes bread for the spectators. The messenger posts the notice of execution in the town square. The poet prepares his best pen to record the events as they unfold. A fly, Niels's only companion in the cell, buzzes. A dog hovers by his young master's window. A young girl hovers too, pitying the boy. The executioner sharpens his blade. This remarkable, wrenching story is told with the alternating perspectives of eleven different bystanders—one per hour—as the clock ticks ever closer to the moment when the boy must face his fate. Niels Nielson, a young peasant, was sentenced to death by beheading on the dubious charges of arson and murder. Does he have the right to live despite what he is accused of? That is the question the townsfolk ask as the countdown begins. With strong social conscience, piercing intellect, and masterful storytelling, Jesper Wung-Sung explores the age-old question: who determines who has the right to live or die?

**The Common Place of Law** Patricia Ewick 2014-12-10 Why do some people not hesitate to call the police to quiet a barking dog in the middle of the night, while others accept the pain and losses associated with defective products, unsuccessful surgery, and discrimination? Patricia Ewick and Susan Silbey collected accounts of the law from more than four hundred people of diverse backgrounds in order to explore the different ways that people use and experience it. Their fascinating and original study identifies three common narratives of law that are captured in the stories people tell. One narrative is based on an idea of the law as magisterial and remote. Another views the law as a game with rules that can be manipulated to one's advantage. A third narrative describes the law as an arbitrary power that is actively resisted. Drawing on these extensive case studies, Ewick and Silbey present individual experiences interwoven with an analysis that charts a coherent and compelling theory of legality. A groundbreaking study of law and narrative, The Common Place of Law depicts the institution as it is lived: strange and familiar, imperfect and ordinary, and at the center of daily life.
