Two Evils

The Soul Catcher Alex Kava 2012-09-17 In a secluded cabin six young men stage a deadly standoff with FBI agents. In a wooded area near the FDR Memorial in Washington, the body of a senator's daughter is discovered. For FBI Special Agent Maggie O'Dell, there is nothing routine about being called in to work these two cases. As an expert criminal profiler, Maggie provides psychological insight on cases that involve suspected serial killers. She can't understand, then, why she has been assigned to two seemingly unrelated crimes. But as Maggie and her partner, Special Agent R. J. Tully, delve deeper into the cases, they discover there is a connection: Reverend Joseph Everrett, the charismatic leader of a high-profile religious sect. The men holed up in the cabin were members of Everett's church, and the murder of the young woman took place following one of Everett's rallies. Is Everett a psychotic madman who uses his power to perform heinous crimes? Or is he merely the scapegoat for a killer more cunning than he? Maggie realizes the only way to find out is by using her own mother, a member of Everett's church, as a pawn in a deadly trap.

She has grown used to the cries of penguins before dawn, to meager supplies and housing, to spending most of her days in one of the most remote regions on earth. What she isn't used to is strange men washing ashore, which happens one day on her watch. The man won't tell her his name or where he came from, but Angela, who has a soft spot for strays, tends to him, if for no other reason than to protect her birds and her work. When she later learns why he goes by an alias, why he is a refugee from the law, and why he is a man without a port, she begins to fall in love—and embarks on a journey that takes her deep into Antarctic waters, and even deeper into the emotional territory she thought she'd left behind. Against the backdrop of the Southern Ocean, The Tourist Trail weaves together the stories of Angela as well as FBI agent Robert Porter, dispatched on a mission that unearths a past he would rather keep buried; and Ethan Downes, a computer tech whose love for a passionate animal rights activist draws him into a dangerous mission.

Justification of Johann Gutenberg Blake Morrison 2010-05-14 Around 1400, in the city of Mainz, a man was born whose heretical invention was to change history. Some sixty years later he died — robbed of his business, his printing presses, and, so he thought, his immortality. In his dazzling first novel, Morrison gives us Gutenberg's “testament” — his justification, dictated to one of the young scribes his invention will soon put out of work. Thus Morrison conjures up the haunting figure of Gutenberg himself: a man who gambled everything — money, honour, friendship and a woman's love — on the greatest invention of the last millennium.

First, Kill the Lawyers David Housewright 2019-01-08 P.I. Holland Taylor returns in David Housewright's Edgar Award-winning series with First, Kill the Lawyers, where Taylor is hired to recover stolen files before they are leaked, ruining more than just the careers of five local lawyers. Five prominent attorneys in Minneapolis have had their computer systems hacked and very sensitive case files stolen. Those attorneys are then contacted by an association of local whistleblowers known as NIMN and are quietly alerted that they have received those documents from an anonymous source. If those files are released, then not only will those lawyers be ruined, but it might even destroy the integrity of the entire Minnesota legal system. This group of lawyers turns to Private Investigator Holland Taylor with a simple directive: stop the disclosure any way you can. But while the directive is simple, the case is not. To find the missing files and the person responsible, Holland must first dive into the five cases covered in the files—divorce, bribery, class action, rape, and murder. While Taylor is untangling the associates and connections between the cases and families affected, things take another mysterious turn and the time before the files are released is running out. As the situation becomes more threatening, Holland Taylor is trapped in the middle of what is legal and what is ethical—between right, wrong, and deadly.

Live Bait P. J. Tracy 2005-04-05 Minneapolis detectives Leo Magozzi and Gino Rolseth are bored - ever since they solved the Monkeewrench case, the Twin Cities have been in a murder-free dry spell, as people no longer seem interested in killing one another. But with two brutal homicides taking place in one awful night, the crime drought ends - not with a trickle, but with an eventual torrent. Who would kill Mory Gilbert, a man without an enemy, a man who might as well have been a saint? His tiny, cranky little wife, Lily, is no help, and may even be a suspect; his estranged son, Jack, an infamous ambulance-chasing lawyer, has his own enemies; and his son-in-law, former cop Marty Pullman, is so depressed over his wife's death a year ago that he's ready to kill himself, but not Morey. The number of victims - all elderly - grows, and the city is fearful once again." The detectives' investigation threatens to uncover a series of horrendous secrets, some buried within the heart of the police department itself, blurring the lines between heroes and villains. Grace MacBride's cold-case-solving software may find the missing link - but at a terrible price.
